から、以下のように表明したい。

Proposer Details	
Gender	Male
Family Name	Murai
Given Name	Jun
Contact email address	事務局アドレス
Organizational Affiliation	Japan IGF Taskforce
Stakeholder Group	Technical Community (マルチステークホルダー連合体を 企図する旨別欄で補足が必要)
Regional Group	Asia-Pacific Group
Do you submit this input on behalf of your organization or in your personal capacity?	I submit this input on behalf of my organization
IGF 2023 Call for thematic inputs	
Please select up to three thematic areas, including up to three issues per area selected from the dropdown box, the IGF could prioritize in 2023.	<input type="radio"/> Cybersecurity and Trust <input type="radio"/> Universal Access and Meaningful Connectivity <input checked="" type="radio"/> Emerging Technologies and Innovation <input type="radio"/> Digital Cooperation <input type="radio"/> Rights and Freedoms <input type="radio"/> Economic Issues and Development <input type="radio"/> Media and Content <input checked="" type="radio"/> Data Governance <input type="radio"/> Technical and Operational Topics

	<ul style="list-style-type: none"> ● Environmental Sustainability and Climate Change
Additional Input	<ul style="list-style-type: none"> ● Pandemic Postmortem - to review the positive and negative changes in digitalization during the pandemic period ● Success and Opportunity - We observe IGF sessions tend to discuss issues and concerns and hope IGF could have the sessions where success and opportunities are discussed and people envisage the bright future.
The IGF also relates to major global initiatives and agendas. How can the IGF annual meeting and its intersessional work better reflect or contribute to the following?	
United Nations Secretary General's Our Common Agenda and its 12 commitments, including as it relates to the 'Summit of the Future' in 2024.	Out of the 12 commitments <u>#7: Improve digital cooperation</u> is highly relevant to the IGF. The IGF should be the place where the global multistakeholders discuss the themes Global Digital Compact covers to produce meaningful and constructive outcomes which would evolve toward the future.
United Nations 2030 Agenda for Sustainable Development and the "2023 SDG Summit" (September 2023)	(left blank)
Do you have any ideas to share about the overall format and design of the IGF (including thematic tracks, or treating themes in a different way)?	The IGF is a good platform where the global multistakeholders discuss the Internet issues and it would be much more productive if the discussion held before could be basis of the future discussion, discussion records are provided/available as the data for further quantitative analyses and

	the study outcomes by the analyses are available for the future further studies.
